## **Gulf Formula FS 5W-30**

Product Code 1209

| ECTION 3. Composition/information on ingredients (continued) |   |
|--|---|
| Other information  | : For full text of all R-phrases: see SECTION 16.   |
| SECTION 4. First aid measures                                |   |
| General advice   | : In case of accident or if you feel unwell, seek medical advice immediately (show the label when possible).                                      |
| 4.1. Description of first aid measured                       | res:  |
| After inhalation   | : Assure fresh air breathing. If you feel unwell, seek medical advice.  |
| <ul> <li>After contact with skin</li> </ul>                  | : Remove contaminated clothing and shoes. Wash skin thoroughly with mild soap<br>and water. Never use kerosine or gasoline for cleaning the skin. |
| <ul> <li>After contact with the eyes</li> </ul>              | : Rinse immediately with plenty of water. Seek medical attention if irritation develops.  |
| After ingestion  | : Do not induce vomiting. Seek medical attention immediately.   |
| 4.2. Most important symptoms and                             | d effects, both acute and delayed:  |
| After exposure   | : No acute or delayed symptoms or effects are anticipated if first aid treatment is<br>applied and is effective.                                  |
| 4.3. Indication of any immediate m                           | edical attention and special treatment needed:  |
| After exposure   | : If injected under the skin when using high pressure equipment, send casualty immediately to a hospital, even when there are few or no symptoms. |

### **SECTION 5.** Firefighting measures

| 5.1. Extinguishing media:  |  |
|--|--|
| Suitable extinguishing media   | : Water fog. Carbon dioxide. Foam. Dry chemical product.   |
| Unsuitable extinguishing media   | : Do not use a heavy water stream.   |
| 5.2. Special hazards arising from the                                  | e substance or mixture:  |
| <ul> <li>In the event of a fire</li> </ul>                             | : Under fire conditions, hazardous fumes will be present.  |
| 5.3. Advice for firefighters:  |  |
| Protective actions   | : Avoid fire-fighting water to enter environment.  |
| <ul> <li>Special protective equipment for<br/>fire-fighters</li> </ul> | : Do not enter fire area without proper protective equipment, including respiratory protection. Wear self-contained breathing apparatus, rubber boots and thick rubber gloves. |
| <ul> <li>Surrounding fires</li> </ul>                                  | : Use water spray or fog for cooling exposed containers.   |

#### **SECTION 6.** Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures:

| <ul> <li>For non-emergency personnel</li> </ul>  | : Evacuate unnecessary personnel.   |
|--|---|
| <ul> <li>For emergency responders</li> </ul>     | : Equip cleanup crew with proper protection. Wear suitable protective clothing, gloves and eye or face protection. Eliminate every possible source of ignition.   |
| 6.2. Environmental precautions:                  |   |
| <ul> <li>In case of accidental spills</li> </ul> | : Avoid release to the environment. Contain any spills with dikes or absorbents to<br>prevent migration and entry into sewers or streams. Notify authorities if liquid enters<br>sewers or public waters. |

Page : 3 Revised edition no : 2

Date : 20 / 6 / 2012

#### Supersedes : 24 / 5 / 2012

## Gulf Formula FS 5W-30

Product Code 1209

| 6.3. Methods and material for containr  |  |
|---|--|
|   | : Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams.   |
| Appropriate clean-up procedures   | : Clean up even minor leaks or spills and spread granular absorbent promptly.<br>Collect spills and put it into appropriated container.  |
| 6.4. Reference to other sections  | : See also sections 8 & 13.  |
| CTION 7. Handling and storage   |  |
| 7.1. Precautions for safe handling:   |  |
| <ul> <li>Measures to prevent fire, aerosol<br/>and dust generation</li> </ul> | : Keep away from sources of ignition. No naked lights. No smoking. Proper grounding procedures to avoid static electricity should be followed.                                     |
| Measures to protect the<br>environment  | : Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams.   |
| <ul> <li>Advice on general occupational<br/>hygiene</li> </ul>                | : When using, do not eat, drink or smoke. Wash hands and other exposed areas with soap and water before leaving work.  |
| 7.2. Conditions for safe storage, inclue                                      | ding any incompatibilities:  |
| Technical protective measures   | : Local exhaust and general ventilation must be adequate to meet exposure standards.   |
| Conditions of storage   | : Store this product in a dry location where it can be protected from the elements. D not store near oxidizing agents or acidic material. Keep at temperature not exceeding 50 °C. |
| <ul> <li>Specific designs for storage rooms<br/>or vessels</li> </ul>         | : Store in tightly closed, properly ventilated containers away from heat, sparks, oper flame, strong oxidizers, radiations, and other initiators.                                  |
| 7.3. Specific end use(s):   |  |
| Recommendations   | : See Product Data Sheet for detailed information.   |

### SECTION 8. Exposure controls/personal protection

#### 8.1. Control parameters:

| Occupational exposure limit values:         | : United Kingdom: Occupational Exposure Standard (OES) of 5 mg/m <sup>3</sup> ,<br>8-hour time-weighted average reference period for oil mist.<br>The American Conference of Governmental Industrial Hygienists (ACGIH) has<br>assigned mineral oil mist a threshold limit value (TLV) of 5 mg/m <sup>3</sup> as a Time<br>Weighted Average (TWA) for a normal 8-hour workday and a 40-hour workweek<br>and a short-term exposure limit (STEL) of 10 mg/m <sup>3</sup> for periods not to exceed 15<br>minutes. Exposures at the STEL concentration should not be repeated more than<br>four times a day and should be separated by intervals of at least 60 minutes.<br>[ACGIH 1994, p. 28] |
|---|--|
| <ul> <li>Biological limit values</li> </ul> | : No data available.   |
| 8.2. Exposure controls:                     |  |
| 8.2.1 Appropriate engineering controls      | <u>s:</u>  |

• Technical measures to prevent : Use adequate ventilation to keep oil mist below applicable standard. exposure

## **Gulf Formula FS 5W-30**

Product Code 1209

| 8.2.2 Individual protection measured | res, such as personal protective equipment:   |
|--------------------------------------|---|
| Eye / face protection                | : Chemical goggles or safety glasses.(EN 166)   |
| Skin protection                      | : Wear suitable protective clothing. (EN 465, EN 466 or EN 467).                                  |
| Hand protection                      | : Wear suitable gloves resistant to chemical penetration. (EN 374)                                |
| Respiratory protection               | : The use of Filtertype A (EN 141) is recommended If exceeding the Occupationa<br>Exposure Limit. |
| Other                                | : Protective helmet. Do not wear leather soled shoes.   |
| 8.2.3 Environmental exposure cor     | <u>itrols:</u>  |
| Measures to prevent exposure         | : Avoid release to the environment. See Heading 6.  |

### **SECTION 9.** Physical and chemical properties

### 9.1. Information on basic physical and chemical properties:

| <ul> <li>Appearance:</li> </ul>                  |  |
|--|--|
| - Physical state                                 | : Oily liquid.                                     |
| - Colour   | : Yellow-brown.                                    |
| • Odour  | : Light odour of petroleum.                        |
| <ul> <li>Pour point (ASTM-D97)</li> </ul>        | : -39℃   |
| <ul> <li>Flash point (ASTM-D92)</li> </ul>       | : 233 ℃  |
| <ul> <li>Density @ 15 ℃ (ASTM-D4052)</li> </ul>  | : 851 kg/m³  |
| <ul> <li>Solubility(ies)</li> </ul>              | : Material insoluble in water.                     |
| <ul> <li>Viscosity @ 40 ℃ (ASTM-D445)</li> </ul> | : 51 cSt   |
| 9.2. Other information:                          |  |
| <ul> <li>General information</li> </ul>          | : See Product Data Sheet for detailed information. |

### **SECTION 10. Stability and reactivity**

| 10.1 Reactivity<br>10.2 Chemical stability<br>10.3 Possibility of hazardous | <ul> <li>No data available.</li> <li>Stable under normal conditions.</li> <li>None under normal conditions.</li> </ul> |
|---|--|
| reactions 10.4 Conditions to avoid  | : Extremely high or low temperatures.  |
| 10.5 Incompatible materials   | : Strong oxidizing agents.   |
| 10.6 Hazardous decomposition<br>products                                    | : None under normal conditions.  |

#### **SECTION 11.** Toxicological information

| 11.1. Information on toxicological effects: |  |  |
|---|--|--|
| Acute toxicity                              | : No specific toxicity data on this product available. |  |
| Irritation                                  | : Not expected to be irritant.                         |  |
| Corrosivity                                 | : No adverse health effects were noted.                |  |

#### Gulf Oil Nederland B.V.

Date : 20 / 6 / 2012

Supersedes : 24 / 5 / 2012

## Gulf Formula FS 5W-30

Product Code 1209

| SECTION 11. Toxicological informati           | on (continued)  |
|---|---|
| Sensitisation                                 | : No sensitization effects known.   |
| <ul> <li>Repeated dose toxicity</li> </ul>    | : Not applicable.   |
| Carcinogenicity                               | : Not expected to be carcinogenetic.  |
| Mutagenicity                                  | : Not expected to be mutagenetic.   |
| <ul> <li>Toxicity for reproduction</li> </ul> | : Not expected to be toxic.   |
| 11.2. Information on likely routes of e       | xposure:  |
| After ingestion                               | : Ingestion may cause nausea, vomiting and diarrhoea.   |
| After inhalation                              | : Not expected to present a significant inhalation hazard under anticipated conditions of normal use.   |
| After skincontact                             | : Repeated or prolonged skin contact may cause irritation.  |
| After eyecontact                              | : Slight eye irritant upon direct contact.  |
| 11.3. Symptoms related to the physic          | al, chemical and toxicological characteristics:   |
| • General                                     | : No adverse symptoms/effects were noted.   |
| 11.4. Delayed and immediate effects a         | as well as chronic effects from short and long-term exposure:   |
| • General                                     | : No acute or delayed symptoms or effects are anticipated if first aid treatment is<br>applied and is effective.  |
| 11.5. Other toxicological information         | : During use in engines, contamination of oil with low levels of cancer-causing combustion products occurs. Used motor oils have been shown to cause skin cancer in mice following repeated application and continuous exposure. Brief or intermittent skin contact with used motor oil is not expected to have serious effects in humans if the oil is thoroughly removed by washing with soap and water. Avoid prolonged contact with used motor oil. |

## SECTION 12. Ecological information

| <ul> <li>Acute (short-term) toxicity</li> </ul>  | : No specific toxicity data on this product available.  |
|--|---|
| <ul> <li>Chronic (long-term) toxicity</li> </ul> | : No specific toxicity data on this product available.  |
| 12.2. Persistence and degradability              | : No data available.  |
| 12.3. Bioaccumulative potential                  | : No data available.  |
| 12.4. Mobility in soil                           | : It is to be expected small mobility in soil. Some or a few components may get into<br>the soil and may cause pollution of ground water. |
| 12.5. Results of PBT and vPvB assessment         | : This mixture does not contain any substances that are assessed to be a PBT or a vPvB.   |
| 12.6 Other adverse effects                       | : Spills may contaminate water supplies / pollute public waters.  |

### **SECTION 13.** Disposal considerations

| 13.1. Waste treatment methods: |   |
|--------------------------------|---|
| Waste disposal                 | : Dispose of this material and its container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation. Recover waste liquids for recycling/re-use. See Directive 2001/118/EC. |
| Waste Code European Waste List | <ul> <li>13 02 06 - synthetic engine, gear and lubricating oils.</li> <li>15 01 10 - packaging containing residues of or contaminated by dangerous<br/>substances.</li> </ul>   |

### **SECTION 14.** Transport information

Not regulated.

### **SECTION 15. Regulatory information**

|                                   | tal regulations/legislation specific for the substance or mixture:  |
|-----------------------------------|---|
| 15.1.1 National regulations:      |   |
| Germany                           | : Water Hazard Class: 1 - slightly hazardous to water   |
| Netherlands                       | : Water pollution effect indication {11}: Slightly harmful to aquatic organisms.<br>Abatement effort: B                                   |
| 15.1.2 International Regulations: |   |
| • Europe                          | : All components listed in the European Inventory of Existing Commercial Chemical Substances (EINECS)                                     |
| • Australia                       | : All components are in compliance with chemical notification requirements in<br>Australia. (AICS)  |
| • Canada                          | : All components are in compliance with the Canadian Environmental Protection Act (CEPA) and are present on the Domestic Substances List. |
| • USA                             | <ul> <li>All components of this material are on the US Toxic Substances Control Act<br/>(TSCA) inventory or are exempt.</li> </ul>        |
| 15.2. Chemical safety assessment  | : No chemical safety assessment has been carried out for this mixture.  |

### **SECTION 16.** Other information

| <ul> <li>Indication of changes</li> </ul>                              | : Revision according to Regulation (EU) No 453/2010 amending Regulation (EC) No 1907/2006.<br>New formulation.  |
