

## Product Data

# Castrol Texspin EE 10™

Energy Efficient Spindle Oil

## Description

*Castrol Texspin oils are energy efficient premium lubricants specially designed and developed to meet the spindle lubrication requirement in Textile Industry. It has been formulated from highly solvent refined base stock possessing excellent chemical and oxidation stability and fortified with selected anti-oxidant, anti-wear, anti-foam and anti-rust additives.*

## Application

*Castrol Texspin oils are strongly recommended for lubrication of high speed textile spindles and machine tool spindle bearings. Castrol Texspin oils are also recommended for lubrication of special Industrial equipments e.g.*

- ◆ Positive displacement blowers
- ◆ Timing gears
- ◆ Centrifugal separators
- ◆ Hydraulic systems of high precision tools

## Performance Level

- ◆ Meets the performance level of DIN 51524 (Part II)

## Advantages

Product Features	Operational Advantages	Benefits
High anti-wear performance	Reduced wear of Components Downtime	Higher productivity due to reduced
Excellent resistance to oxidation	Reduced oil thickening	Extended oil life
High resistance to rust & corrosion	Reduced equipment Ageing	Extended equipment life

## Product Data

### Characteristics

Characteristics	Typical Value
Appearance	Bright Clear Yellow Liquid
Colour	1
Flash Point, COC, °C	170
K.Viscosity @ 40°C	12.5
Pour Point, °C	- 12

*These are typical figures and do not constitute a specification.*
