

Product Information

A PRODUCT OF THE VALVOLINE COMPANY A DIVISION OF ASHLAND INC.

PYROIL NON-CHLORINATED CARBURETOR CLEANER

- Removes Gum, Varnish, Sludge, and Carbon Deposits Instantly
- Cleans Carburetors, Chokes, PCV Valves, Throttle Linkages
- Safe for Oxygen Sensors, Catalytic Convertors, and Electronically-Controlled Carburetors
- Removes Throttle Body Deposits That Interfere With Air Flow To PFI, TBI, and Diesel Engines
- Contains No Chlorinated Solvents or CFCs / Ozone Safe

Maximum Cleaning Power

Equipment coated with gum, varnish, carbon, or dirt becomes sticky and inefficient. Sticking PCV valves can cause excessive oil consumption. Sluggish chokes and throttle linkages increase fuel usage and harmful emissions. Gummy throttle plates and linkages can result in engine run-on. **Pyroil Carburetor Cleaner** is a blend of selected solvents, carefully formulated to maximize cleaning power. Stubborn deposits are dissolved away quickly.

A Safer Solvent

Unlike many carburetor cleaning products **Pyroil Carburetor Cleaner** doesn't contain methylene chloride which has been shown to cause cancer in laboratory animals. Many aerosol carburetor cleaners use methylene chloride, taking advantage of its cleaning ability. **Pyroil Carburetor Cleaner** blasts away troublesome deposits without using any chlorinated solvents which can also form extremely poisonous gases when subjected to combustion chamber temperatures.

Easy To Use

For large, open areas, simply hold can upright 4-6 inches from part to be cleaned and spray. An extension tube is provided for pinpoint accuracy and for hard to reach areas.

Technical Data:

Specific Gravity	0.83-0.85
Appearance	Clear Liquid

This information only applies to products manufactured in the following location(s): USA, Canada.
